## RIISS00054 - Traffic Controller Skill Set

|            |   |
|------------|---|
| RIICOM201D | Communicate in the workplace  |
| RIIWHS201D | Work safely and follow WHS policies and procedures                                |
| RIIWHS205E | Control traffic with stop-slow bat  |
| RIIWHS206  | Control traffic with portable traffic control devices and temporary traffic signs |

### Description

This qualification is for employees who manage traffic through and/or past a roadwork site, directing traffic with a stop/slow down bat or similar control device.

*(This course does not qualify a participant to set up work with traffic control plans.)*

### Enrolment

Participants will be required to complete an enrolment form online prior to training. On this form participants can indicate whether they require further assistance due to any LLN issues. This is most important so that the trainer/assessor can implement any processes prior to the day's training.

### Delivery and Assessment Method

Training Day – All participants to attend pre-determined training day. After the course induction the trainer/assessor will facilitate the participants through both theory and simulated practical sessions.

Your trainer/assessor will be assessing you throughout the day and this will form part of what we call a 'portfolio of evidence'. This portfolio will then be the basis on which the assessor will make a summative assessment of your competence.

### Post training course requirements

The assessor needs to gather evidence from three separate workplace experiences. All participants will need to be directly observed at a workplace on at least three occasions undertaking appropriate traffic control activities. This evidence will form part of the 'portfolio of evidence' which will be the basis on which the assessor will make a summative assessment of your competence.

### Learning Outcomes

- Stop/direct road users using a stop/slow bat and understand stopping sight distances
- Monitor traffic with portable traffic control devices and temporary traffic signs according to traffic management plans and traffic guidance schemes
- Maintain traffic incident reports
- Understand the Traffic Control Guidance Schemes (TCGSs) also known as Traffic Control Plan (TCPs) for the site
- Assess and respond to changes in the environment, for example traffic volumes, weather conditions, road conditions, Work Health and Safety (WHS) and operational requirements
- Carry out risk assessments for personal safety

- Participate in toolbox talks (specific to traffic control)
- Use communication methods and devices
- Use Portable Traffic Lights to control traffic
- Conform to traffic control policy and procedures

### **Pre-requisite**

All participants will require a Unique Student Identifier Number (USI) prior to enrolment. If you need to obtain a USI please go to - <https://www.usi.gov.au/students/create-your-usi>

All participants must complete the pre-course learning located on our website (found under “Student Resources”) prior to attendance.

You will be asked to answer questions on this throughout the duration of the course.

It is the Learners’ responsibility to disclose and make TMT aware of any information pertaining to their individual learning requirements including LLN levels so as reasonable adjustments can be made.

A Safe Work WHS White card and a driver’s licence is extremely desirable as on most occasions this will be an employment pre-requisite

### **Course duration**

1 day + half day workplace direct observations

### **Number of participants**

Maximum        20
